

PRIMARY LOGO

Clear Space

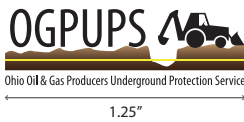

The minimum required clear space is defined by the measurement "O" (equal to the width of the uppercase "O"). An empty space of at least the "O" measurement must surround the logo to preserve adequate "breathing room".

Color & Graphic Standards

In order to preserve the color and graphic standards established for the OGPUPS logo, an original file must always be used. Please download the correct logo version from www.ogpups.org and do not attempt to recolor or reposition any element of the logo.

INCLUDING ORGANIZATION NAME

If 1.25" or larger, the logo should, if at all possible, include the full organization name.

MINIMUM LOGO SIZE

The minimum size that the OGPUPS logo may be used is 1". When less than 1.25", omit the organization name and use the graphic only.
